

## Twenty Years Later

2006

Twenty years later  
A little older  
A little grayer  
But still in love!

Been though thick and thin  
I'm getting thicker  
You're getting thinner  
But still in love!

Year by year they creep  
Missing a few teeth  
But YOUR smile's still sweet  
We're still in love!

Years have flown tis true  
My vows I'd make anew  
Share the rest with you  
I'm still in love!

Trials come and go  
Just want you to know  
Nearer and dearer you grow  
I'm still in love!

Some ask inquiring  
The most important thing?  
From our hearts would spring  
Sacrificing love!

Will I ever learn  
As the pages turn  
To fill the heart's yearn  
Never failing love!

Hear me as I pray  
From this very day  
I'll stay in the way  
Of selfless love!

When next year comes round  
May it still be found  
In His grace we abound  
And still in love!

Fresh and new like spring  
Whatever the years bring  
Still be able to sing  
Always in love
