Would I still have chosen thee?

Had I known what would be
Would I still have chosen thee?

I promised you an answer Dear
Now is come that time of year

Even though there were some trials
Nearly forgotten through the smiles

How could there ever be another
For me you are the only lover

Gentle, thoughtful, godly and kind
A treasure one would rarely find

I could search the whole world through
And never find a man like you

Having hearkened to His voice
Sure I made the very best choice

Trusting in God's perfect plan
Tests being tools in His hand

Uniting our hearts to beat as one
Waiting for His work to be done

As I strive for love that's pure
Of my love you can be sure

Had I known what would be
Of course I would have chosen thee!
